

Product Backlog

The backlog stories are divided into 5 groups. Each group has a corresponding color: **show-stopper**, **critical**, **major**, **normal**, **minor**. They are as follows:

1. As a customer or a guest I want to be able to search for a book (by inputting the name, author, isbn, year or category, filtered by (specific) bookstore/library) so that I can find desired books
2. As a user I want to be able to access a book so that I can see details of it
3. As an administrator of institution I want to be able to manage books in my institution (add, search and delete) so that the state of books is updated in the system
4. As a guest I want to be able to create an account with my name, surname, address, e-mail address and phone number so that I can be a customer
5. As a customer or an administrator I want to be able to log in to the system so that I have more functionalities
6. As a customer or an administrator I want to be able to log out from the system so that I can become a guest
7. As a customer I want to be able to borrow a book from the library so that this book is temporarily assigned to me
8. As a customer I want to be able to buy books from the bookstore so that the administrator of the bookstore can accept my order and I can buy the book
9. As an administrator of bookstore I want to be able to confirm book orders so that the order is completed and the user gets a confirmation email
10. As an administrator of library I want to be able to return books so that the order is completed
11. As an administrator of the system I want to be able to manage administrators of the bookstores and libraries so that so that I can add new institutions with new administrators and delete the shut down ones
12. As a customer I want to be able to access my account so that I can see books I have borrowed and not given back and my personal information
13. As a customer I want to receive reminder emails 3 days before the return date so that I will be inform that I have to return the book
